MEMORANDUM FOR:
Chief, Special Projects Team, SR/SEC

FROM: Director of Central Intelligence

SUBJECT: Unclassified Civil Defense Study

1. In Dr. Brzezinski's memorandum on our unclassified version of the civil defense study, I'm sure that Zbig did not intend that he request any changes that would shape the import of this intelligence memorandum, but rather was seeking clarity.

2. Nonetheless, I'd appreciate your going through each of his suggested changes and checking whether you believe they will be improvements of form and style or whether they will constitute changes in the message which the memorandum carries. We can certainly always improve our style; we must insure the inviolability of the independence of the intelligence process in policy making.
